## Intergovernmental Review Notices (October 1 – 15, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**AGENCY:** Federal Energy Regulatory Commission

**CONTACT:** George H. Taylor

**TELEPHONE:** (202) 219-2692

**ADDRESS:** Federal Energy Regulatory Commission  
888 First Street, NE  
Washington, DC 20426

**DESCRIPTION:** The Commission issued an Order Approving Reservoir Drawdown on September 1, 2000. Placer County Water Agency (licensee) filed on August 7, 2000, and supplemented on August 23, 2000, a request to draw down the Interbay Reservoir during September-October 2000, and remove approximately 70,000 cubic yards of sediment deposited during high flows in January 1997. The Interbay Reservoir is located on the Middle Fork American River. The licensee plans to maintain the required minimum flow during the maintenance work. This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order, pursuant to 18 CFR § 385.713.

**TELEPHONE:** (202) 219-2837

**ADDRESS:** Federal Energy Regulatory Commission  
888 First Street, NE  
Washington, DC 20426

**DESCRIPTION:** On September 22, 2000, the Commission issued an Order Amending Exemption for the Etiwandi, Emerald, and San Dimas Wash Generation Project. San Gabriel Valley Municipal Water District, exemptee for the Project, requested an amendment of their exemption in a letter dated September 12, 2000, wherein the exemptee states they do not plan to construct the Etiwandi and Emerald stations in the near future. In their letter, the exemptee requests their exemption be amended to delete the unconstructed Etiwandi and Emerald generating stations but retain the San Dimas facility. The project is located on the Devil Canyon – Azusa Pipeline in Los Angeles and San Bernardino counties, California. This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order, pursuant to 18 CFR § 385.713.

**AGENCY:** U.S. Postal Service

**CONTACT:** Marni Gagne

**TELEPHONE:** (650) 615-7216

**ADDRESS:** U.S. Postal Service  
Pacific Facilities Services Office  
395 Oyster Point Boulevard  
South San Francisco, CA 94099-0300

**DESCRIPTION:** A site for the new Main Post Office in Lincoln, CA is under consideration. The site is located at the block bordered by 2<sup>nd</sup>, 3<sup>rd</sup>, E and F streets in downtown Lincoln, CA. Also, the following sites are under consideration for a new Carrier Annex only for Lincoln, CA: 1) a portion of one of three parcels bordering Sterling Parkway and Lincoln Parkway or; 2) SEC of Nicolaus and Joiner Parkway. The estimated project size for the building and site is 21,049 square feet and 96,767 square feet, respectively. Based on the assessment of the direct and indirect emissions from the project, it was concluded that project emissions would create insignificant impacts on regional air quality. No significant impact to the environment is anticipated.

**TELEPHONE:** (202) 219-2699

**ADDRESS:** Federal Energy Regulatory Commission  
888 First Street, NE  
Washington, DC 20426

**DESCRIPTION:** The Commission issued an order revoking exemption from licensing that was granted on May 16, 1984 for the Shasta River Project No. 7400, located at an existing dam on the Shasta River in Siskiyou County, CA. According to article 1 of the exemption, if any term or condition of the exemption is violated, the exemption may be revoked. The exemptee has failed to maintain fish passage facilities at the project as specified by the U.S. Department of Interior and the California Department of Fish and Game under article 2 of the exemption. This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order, pursuant to 18 CFR § 385.713.

Pacific Facilities Services Office  
395 Oyster Point Boulevard  
South San Francisco, CA 94099-0300

**DESCRIPTION:** A site for a new Main Post Office in Rescue, CA is under consideration. The parcel of land is known as 5210 Deer Valley Road, Rescue, CA and is owned by Wayne E. Dawson. The estimated project size for the building and site is 5,175 square feet and 51,433 square feet, respectively. Based on the assessment of the direct and indirect emissions from the project, it was concluded that project emissions would create insignificant impacts on regional air quality. No significant impact to the environment is anticipated.

**CONTACT:** Jason Davis or Stephanie Brady

**TELEPHONE:** (916) 414-6600

**ADDRESS:** U.S. Department of the Interior  
Fish and Wildlife Service  
Sacramento Fish and Wildlife Office  
2800 Cottage Way, Room W-2605  
Sacramento, CA 95825

**DESCRIPTION:** The Service has designated critical habitat for the threatened Alameda whipsnake (Masticophis lateralis euryxanthus). The Alameda whipsnake was listed as a threatened species in 1971 by the State of California and as a federally threatened species in 1971. Residential, commercial, and recreational development, and certain fire suppression activities threaten the Alameda whipsnake. This final rule, made under the authority of the Endangered Species Act of 1973, as amended, was published in the Federal Register on October 3, 2000. The Service designates seven critical habitat areas totaling approximately 406,598 acres in Alameda, Contra Costa, Santa Clara, and San Joaquin counties of California. Critical habitat includes areas that support plant communities such as scrub, and adjacent grassland and oak woodlands. Protection and special management of these areas are essential to the recovery of the Alameda whipsnake.

**AGENCY:** U.S. Army Corps of Engineers – San Francisco District

**CONTACT:** Debra O’Leary

**TELEPHONE:** (415) 977-8442

**ADDRESS:** U.S. Army Corps of Engineers  
San Francisco District  
Regulatory Branch  
333 Market Street  
San Francisco, CA 94105-2197

**DESCRIPTION:** The California Department of Transportation has modified its application for a Department of the Army permit for the work and placement of fill associated with the construction of a

new Benicia-Martinez Bridge (Interstate 680) to include the dredging of 50,000 cubic yards of sand. The sand would be removed from a dredging easement just east of the proposed bridge. The dredging is necessary to create a navigational channel for the Maritime Administration's Suisun Bay Reserve Fleet (SBRF). This channel is required to mitigate for the effects the new bridge would have on navigation by the Maritime Administration's SBRF.

**AGENCY:** U.S. Department of the Interior – Bureau of Reclamation

**CONTACT:** Jeffrey S. McCracken

**TELEPHONE:** (916) 978-5100

**ADDRESS:** U.S. Department of the Interior  
Bureau of Reclamation  
Mid-Pacific Regional Office  
2800 Cottage Way  
Sacramento, CA 95825-1898

**DESCRIPTION:** The Federal Central Valley Project (CVP) carries over approximately 7.9 million acre-feet of water into the new water year (October 1- September 30). The higher than normal carry-over supply reflects the wetter than average hydrologic conditions experienced in northern California during the past 6 years. The total Water Year 2000 deliveries for the CVP are estimated at 6 million acre-feet. The Bureau of Reclamation will be monitoring and evaluating storage and supply for the coming flood season. All major reservoirs will be at or very near the prescribed flood control objectives for the beginning of the 2000-2001 flood season.

**ADDRESS:** U.S. Army Corps of Engineers  
Los Angeles District  
911 Wilshire Boulevard  
Los Angeles, CA 90017

**DESCRIPTION:** The Los Angeles and South Pacific Division Engineers have completed the Final Feasibility Study of ecosystem restoration in Upper Newport Bay, California. The study was prepared in response to Section 841 of the Water Resources Development Act of 1986.

Section 841 directed the Corps to dredge and maintain a 250-foot wide navigation channel in the Upper Newport Bay to the boundary of the Upper Newport Bay State Ecological Reserve. However, during the initial stages of the study, it became clear that there were significant sedimentation problems in the ecological preserve just upstream from the proposed channel extension and the study was re-directed and expanded accordingly to address these sedimentation problems. The Feasibility Study was conducted as a cost-shared study, with the County of Orange as the non-Federal study sponsor.

888 First Street, NE  
Washington, DC 20426

**DESCRIPTION:** On September 28, 2000, the Commission issued an order approving a revegetation monitoring report for the Mojave Siphon penstock, part of the California Aqueduct Project. The California Aqueduct Project is located on the California Aqueduct in San Bernardino County and the City of Los Angeles, California. The Final Modified Soil Erosion Control and Revegetation Plan required the licensee, the Department of Water Resources and the City of Los Angeles, to file the results of monitoring revegetation efforts at the Mojave Siphon after three years. The filed report, which is required to include any recommendations for additional mitigation or monitoring, states that none of the sites met the plan requirements for percent vegetation cover. The final plan will be filed with the Commission by September 1, 2001.

Sacramento, CA 95825-1898

**DESCRIPTION:** The Bureau of Reclamation and the East Bay Municipal Utility District have released for a 45-day review of a Recirculated Environmental Impact Report/Supplemental Environmental Impact Statement (REIR/SEIS) on the proposed Supplemental Water Supply and Central Valley Project (CVP) Contract Amendment. This REIR/EIS describes the environmental effects of taking delivery of water under EBMUD's contract from the lower American River near its confluence with the Sacramento River, two locations on the Sacramento River between its confluence with the American River and the community of Freeport and a location in the Sacramento-San Joaquin River Delta. Emphasis is directed toward potential effects related to American River fisheries, endangered species, CVP

water users, pipeline construction, and biological resources in the EBMUD service area.

**TELEPHONE:** (202) 219-2665

**ADDRESS:** Federal Energy Regulatory Commission  
888 First Street, NE  
Washington, DC 20426

**DESCRIPTION:** On September 29, 2000, the Commission issued an order approving the revised exhibits for the Vermilion Valley Project, located on the Mono Creek, Fresno County, California. On July 24, 1997, an Environmental and Public Use Inspection by the Commission's San Francisco Regional Office found that the Warm Creek Diversion, as constructed, did not guarantee to release minimum flow requirements. Diversion modification work was completed on October 1, 1998. Commission review found that: (1) modification of the diversion work fulfills the minimum flow requirements, (2) while the project is located on federal lands, none were affected by the diversion ditch modifications, and (3) exhibit drawings conform to the Commission's rules and regulations and are approved by this order.

2000061119	<p>Canyon Estates - TTM 16104, General Plan Amendment 00GPA01. Planned Development Plan 00PD01, Zoning Amendment 00ZA01</p> <p>Chino Hills, City of</p> <p>Chino, Brea--San Bernardino</p> <p>Canyon Estates is a proposal by Catellus Residential to develop 59 single-family lots on a 299-acre site. The developed portion of the proposed project would encompass approximately 72 acres on the northern portion of the site. The southern portion of the site, consisting of approximately 227 acres, is proposed to remain as natural open space. The site is designated Agriculture / Ranches in the City General Plan and zoned Agriculture-Ranch (R-A), permitting up to 0.2 dwelling units per acre. Maximum development of the Project site permitted under the General Plan is 59 dwelling units. The applicant is proposing to develop the project through a planned development plan in order to cluster the units in the flattest area of the site and the area of least environmental disturbance. If approved, the Canyon Estates Planned Development Plan would change the zoning of the property from R-A to Planned Development (PD). To provide vehicular access to the site, the project proposes to downgrade Soquel Canyon Parkway between Pipeline and Peyton Avenues (Loop 1) from a 6-lane Major Arterial, as currently designated in the General Plan Circulation Element, to a 2-lane Collector.</p>	<b>NOD</b>	
2000082012	<p>Proposed Hilmar 6-8 Middle School</p> <p>Hilmar Unified School District</p> <p>Hilmar--Merced</p> <p>The proposed Hilmar Middle School will consist of grades 6 through 8 on approximately 15 acres of land owned (since 1978) by the Hilmar Unified School District. The proposed middle school will provide for a total student population of about 600. The proposed project will include construction of a two-lane, two-way paved access road (from Geer Avenue to the proposed middle school); onsite paved roads and parking areas; playgrounds; cafeteria/auditorium building; one-story, concrete and wood-framed classroom buildings and office facilities; other school-related facilities (e.g., computer lab, administrative offices); clearing and landscaping; and infrastructure (e.g., sewer water) extension from the Hilmar school complex.</p>	<b>NOD</b>

1999101128	52nd Street Area Elementary School (AKA Jackson/Marshall Area Elementary School) San Diego Unified School District San Diego--San Diego The proposed 52nd Street Area Elementary School would accommodate a planned enrollment of approximately 700-900 students, kindergarten through grade five. The school would principally serve a portion of the students residing in the Colina del Sol and adjacent neighborhood areas in the community of City Heights. Faculty would consist of approximately fifty-two (52) full-time employees. Approximately seventy (70) off-street parking spaces would be provided at the site. The project also includes playground facilities and joint-use turf fields that would be available to the public after school hours. The school site could be developed with other compatible youth and neighborhood resident serving facilities on site or adjacent to the site. The proposed elementary school would serve to relieve the enrollment at existing schools that may include Euclid, Jackson and/or Marshall elementary schools. The City of San Diego identifies the Colina del Sol neighborhood as "Colina Park" in the Mid-City Communities Plan (August 1998).	<b>EIR</b>	11/16/2000
2000101010	Santa Barbara County and Twitchell Reservoir Cloud Seeding Santa Barbara County Solvang--Santa Barbara, San Luis Obispo The Santa Barbara County Water Agency proposes to continue the cloud seeding activities currently being implemented. These activities have been ongoing since 1981 and serve to augment natural rainfall to increase available water supplies by inducing higher rates of groundwater basin recharge and runoff into surface reservoirs. The cloudseeding program targets two geographical areas: the Santa Ynez River watershed above Lake Cachuma in Santa Barbara County and the watershed area of the Twitchell Reservoir within Santa Barbara and San Luis Obispo counties.	<b>Neg</b>	11/01/2000

1990020181	Legends Village Units 4 & 5 Vesting Tentative Subdivision Map Modesto, City of Modesto--Stanislaus This is a vesting tentative subdivision map in the Village One Specific Plan to create 29 single-family lots and a 2.09-acre remainder on 10.7 acres.	<b>NOD</b>	
1992052017	Parcel Map for I.C.I. Development Company and Save Mart Supermarkets Modesto, City of Modesto--Stanislaus The applicant proposes that a revised plot plan will be considered to allow the newly located modular classroom units to remain approximately 30-feet from the residential properties to the west. The setback separation was proposed and approved with a 67-foot setback under the Board's previous review of this facility. The applicant subsequently proceeded with the setup of these modular classroom units, at their own risk, without a building permit. As a result, this issue was not brought to staff's attention until the classrooms were in place. In order that the school year might start on schedule, a 30-day temporary occupancy was issued by the Chief Building Official. In turn, the applicant was required to reapply for the Board's resolution of the plot plan discrepancy.	<b>NOD</b>

2000101041	National Training Center, California State University Dominguez Hills California State University Trustees Carson--Los Angeles On an approximately 85 acre primary site: 20,000-27,000 seat professional soccer stadium; 8,000-13,000 seat tennis stadium, possible US Soccer Federation offices, practice soccer fields, tennis courts and academy. On an approximately 40 acres secondary site: relocation of bicycle velodrome, track and field improvements, and other improvements to California State University Dominguez Hills athletic facilities.	<b>NOP</b>	11/10/2000
2000102046	2002 Long Range Development Plan EIR for Lawrence Berkeley National Laboratory (LBNL) University of California Berkeley, Oakland--Alameda The project under consideration in this EIR, will be LBNL's proposed new LRDP. The LRDP planning period would extend through 2022, although the actual pace and nature of projected development will depend on a number of factors that cannot all be predicted at this time; these include future funding issues and the future direction of national research. For the purposes of environmental analysis, a firm twenty-year timeframe will be used. The LRDP will be a planning document that will address continuing and future uses and activities at Berkeley Lab. In order to support anticipated national research needs. LBNL population growth demand is expected to continue at near of slightly below its recent historic rate--about 1.3% per year. At such a rate, LBNL's population could rise from the the present level of about 4,200 to approximately 5,500 by year 2022. This would be an increase of approximately 31% over the current LBNL population and approximately 16% over the 1987 LRDP population of 4,750. The The 200-acre LBNL site (see figure 3) includes approximately 1.75 million gross square feet (gsf) of building space consisting mainly of office, laboratory, shop, and storage areas. Additional development includes roads, parking lots, utilities and infrastructure. Approximately one-third of the site is developed (impermeable surface area) while the remaining two-thirds is historically agricultural or otherwise managed areas with limited development. The latter areas are hosts to a variety of mostly non-native grasses, brush, and woodlands. LBNL's undeveloped areas are subject to on-going vegetation management for fire control purposes.	<b>NOP</b>	11/10/2000
